

Changes Within the MFG Team

Marinis Financial Group (MFG) managing director Theo Marinis, today announced some changes to the structure of the firm's para-planning and administrative team, together with the appointment of an additional director to the Group's Advisory Board.

"Following a review of our business efficiency, Ms Kristina Uscinowicz has been appointed as our first Practice Manager. This means that Kristina hold a key operational position within the MFG team, with all para-planning and administration team members reporting directly to her.

As a member of the MFG team for three years, Kristina is a qualified financial planner with a degree in communications, and brings to the role a wealth of industry experience. During her time at MFG, she has displayed a high level of professionalism and leadership, and I look forward to her continued effort in this important new role.

Sadly, at this time we also say goodbye to our longest serving employee, Ivana Samra, who leaves us with our thanks for her dedicated service, and our very best wishes.

Mr Sam Molloy has been appointed to the MFG Advisory Board, adding his strategic expertise and financial services acumen to the firm. Sam joins former senior staff member Michael Callisto, Business Coach Mark Laing, student (and eldest daughter of Theo and Julie) Sofia Marinis, together with PR consultant and academic, Simon Morgan. The role of the Board is to provide expertise, guidance and advice."

"I have known Sam Molloy for more than two decades, and have learned to value and respect his advice. This appointment formalises our relationship. I look forward to working more closely with Sam over the years as he and his fellow members of the Board of Advice help me, Kristina and our financial advisory team to serve our clients even more effectively," Theo said.
